

Never in my lifetime have I observed voters angrier with intrusive government and the political parties that facilitate it. Voters in Chester County – disillusioned Democrats and independents as well as Republicans – will be looking to this party to provide candidates of integrity who will honor the Constitution. They are looking for a new Republican Party to lead them away from socialism. To them this is not a party matter, it is a matter of saving the Republic.

If no voice were raised this evening in opposition, these voters would be justified in turning their backs on us as they did in 2006 and 2008. By re-electing a chairman who has presided over the deterioration of the Republican Party in Chester County, we send a devastating signal of failure to those voters in November. We accept an absence of a winning strategy from the current leadership in exchange for a rationalization of upcoming defeat – demographics.

There is an alternative to this dismal outcome. We do not have to settle for a Republican Party that once again snags defeat out of the jaws of victory. We can vote for a candidate for the chairman of this party who is dedicated to winning in 2010 and 2012. We can turn the rascals out of government if we have the individual will and party leadership. I nominate Steve Kantrowitz for Chairman of the Republican Committee of Chester County.
